

# KENTMERE ACADEMY AND NURSERY

## YEAR 1/2 OPTIONAL HOMEWORK MENU – Autumn Two 2018

### Art

Make a telescope from recycled objects and decorate this with some useful facts about space.

### English

Visit your local library and search for some space themed books to take home and read.

### Science

Make your own planets and stars out of junk modelling resources, labelling which star is the brightest. You could also work out which constellation is the easiest to recognise and have a look for them on starry night with an adult.

### Maths

Make maps of the solar system and ask navigate the space rocket or ship to different planets using positional and directional language such as left, right, up and down.

## Year 1 / 2 Homework Menu Autumn Term Two

### History

Make a poster about all the interesting facts about famous astronauts Neil Armstrong or Tim Peake.

### Religious Education

Find out about different religious festivals like Christmas and Diwali.

### ICT

Search the internet with an adult to find fascinating facts about space. You could make your own word processed Space Fact Book to display these facts.

### Music

Spend time as a family making your own space song or rhyme. Let a teacher know when this is complete and your child will be welcome to share this with their class.

### Physical Education

Spend time making up dances for familiar rhymes such as 5 little men in a flying saucer or twinkle twinkle little star.

**Celebration Date:  
21<sup>st</sup> December 2018**

### PSHCE

Spend time researching and finding out about Remembrance day and who we remember. You could make a poster or a fact file to share this information.
