## Music Early Years

In the Early Years, Music is an integral part of learning. In addition to the teaching of musical skills such as finding the singing voice, keeping a steady pulse and understanding the comparatives; louder/ quieter, higher/lower and faster/slower, the children use music and song across the curriculum. Listening to songs from different cultures increases a child's knowledge and understanding of the world. Assemblies and Christmas performances for parents allow children to showcase their musical skills.

### **In Early Years, the children will learn:**

- Have begun to build up a repertoire of songs.
- Explore different sounds of instruments.
- Create movement in response to music.
- Tap out simple repeated rhythms.
- Explore how sounds can be changed.
- Make up simple rhythms.
- Make up simple songs.
