

We place great importance on enrichment at Kentmere.

Soaring to success

# Spanish Enrichment

Enrichment for Spanish is of great relevance at Kentmere, as children learn a new language from a country they may not have visited before. Therefore, children are provided with opportunities within their curricular diet to explore the culture, food and festivals celebrated in Spain. Children celebrate a Spanish themed day to taste typically Spanish foods, take part in Spanish songs, games and listen to native music. We have a wide range age appropriate books that are written in Spanish that all children have access to.
