

Soaring to success

PSHE

How are Children Taught?

PSHE is taught as a discrete subject but can be incorporated into other curriculum areas such as science, English, RE, geography. Also, PSHE issues may be addressed during assemblies, specialist themed events or activities (Sunshine Days), or School Council 'class meetings'. We use a range of teaching and learning styles in all lessons and we place an emphasis on active learning by including the children in discussions, investigations and problem-solving activities.

PSHE lessons have been mapped out by the Senior Leadership Team (SLT) and create a spiral curriculum, which builds upon prior learning across the phases. The curriculum covers the three core themes as set out by the Department for Education:

- Core theme 1: Health and wellbeing
- Core theme 2: Relationships
- Core theme 3: Living in the wider world
