How are Children Taught?

Our aim is to provide our children with an empowering, holistic and engaging curriculum that equips them with the skills and knowledge for life. At Kentmere Academy, the curriculum is designed to: provide first-hand, purposeful learning experiences; allow the children to develop interpersonal skills, build resilience and become creative, critical thinkers.

The RE Subject Leader has also mapped out the knowledge and skills for every RE lesson throughout the school, this ensures that learning is not only sequential but also progressive. At the start of each lesson we revise prior learning of RE in order to encourage 'sticky learning'. Enrichment and experiences, such as trips, visitors, and real-life experiences, are used frequently to support the teaching of RE, this further engages our learners. Children are provided with knowledge packs with information for them to learn and deepen their understanding in preparation for future RE quizzes.
