We place great importance on enrichment at Kentmere.

Soaring to success

P.E. Enrichment

Enrichment is of upmost importance at Kentmere, providing children with the cultural capital to build on their learning. We ensure that in every academic year, there are at least 10 PE competitions, festivals and experiences offered to our children throughout school. This is in partnership with Rochdale School Games (RSGP), who we work closely with the provide a wide range of sporting events that we attend, from Dodgeball to Gymnastics. We invite GB athletes into school to provide children with taster days of their specialist sport, such as judo, and signpost local clubs where they can further their enjoyment and skill.

Kentmere offers a wide range of after school clubs which are free for children to attend. There are at least 3 sports clubs every day, for each key stage, which offer children the opportunity to practice the sports and skills learned in PE lessons. These clubs are planned by the PE subject leader to complement the competitions calendar with RSGP, so children are trained to compete in their chosen sport within and between schools. We value these opportunities greatly, and have recently invested in a school minibus to provide all children the opportunity to attend these events.
